

Ryan Teo

A brief introduction to me: <https://laptop-render.vercel.app/>

9636 2269 • ryanteozw@gmail.com • linkedin.com/in/ryan-tzw/ • github.com/ryan-tzw

Experience

SEP 2020 – FEB 2021

Security Operations Center Analyst • Housing & Development Board

- Daily operational work (intelligence collection & domain fraud monitoring).
- Developed an automated cyber threat intelligence collection system.
- Automated and enhanced an existing domain fraud detection system to minimize the manual work required for the security analysts.
- Produced user guide for newly implemented system.

Education

SEP 2023 – APR 2027

Bachelor of Engineering – BE, Computer Science • Singapore University of Technology and Design (SUTD)

4.1 GPA

Projects

Laptop Render (<https://laptop-render.vercel.app/>)

- A site that is rendered on the screen of a 3D model of a laptop, instead of on the screen directly.
- The site inside of the laptop is here: <https://basic-site-rtzw.vercel.app/>

My Journey (<https://rtzw-my-journey.vercel.app/>)

- A portfolio site I made to showcase my interests and capabilities when applying to SUTD.

FabLab Adventures (<https://github.com/ryan-tzw/CTD-1D>)

- A simple 2D arcade-style game where you dodge incoming projectiles, made entirely in Python.

Skills

JavaScript/TypeScript • HTML/CSS • Python • C# • Java • UI/UX Design • GLSL • PHP • SQL
